

JOB TITLE:	Global Sourcing Manager - Market Research Resources	EXPERIENCE:	12+ Years
-------------------	---	--------------------	-----------

Department/Group:	Market Research/Procurement	Location:	Noida, India
--------------------------	-----------------------------	------------------	--------------

ROLE AND RESPONSIBILITIES

- Lead and manage global sourcing strategies for market research resources, ensuring alignment with business goals.
- Identify and establish relationships with key vendors and service providers.
- Negotiate contracts and pricing with vendors, ensuring competitive and cost-effective solutions.
- Coordinate with cross-functional teams (Research, Operations, and Procurement) to ensure seamless execution of projects.
- Monitor performance metrics and quality standards of market research vendors.
- Stay updated on industry trends and innovations to drive continuous improvement in sourcing processes.

LOOKING FOR SOMEONE WITH

- 12+ years of experience in global sourcing, preferably within the market research industry.
- Strong negotiation, communication, and relationship management skills.
- Proven track record in vendor management and procurement processes.
- In-depth knowledge of market research methodologies and industry best practices.
- Ability to work cross-functionally and lead teams.
- Bachelor's degree in Business, Marketing, or related field (Master's preferred).
